To,
The Hiring Manager
Dev Match Pro

Subject: Application as an SQA Engineer.

Dear Sir,
In response to your job advertisement published on Facebook. I would like to introduce myself to you as I believe I have the skills, qualifications, and experience necessary to make a significant contribution to your company.

I have completed my B.Sc. in CSE degree from the Department of Computer Science & Engineering at Daffodil International University. My keen interest in Computer Science & Engineering has enabled me to develop a good knowledge of Software development, Software Testing, and other accessories.

I have experience in project exhibitions at different tech festivals of the university that enhanced my technical skill and excellent communication skill. However, I can assure you that I am a quick learner, adaptive as well as an energetic person.

I believe working in a reputed company like yours will provide me with an excellent opportunity for my career in the SQA field. I would truly be grateful if I finally select for that post, I will prove myself to be an important asset to your company through my dedication and the highest level of professionalism.

Sincerely,
Md. Abdul Kuddus Nibir
